Ergonomic JDA Spherical Keycap

75% Layout with 81 keys Truly revolutionary spherical keycap design with just right cap height, support your hands and fingers in a very comfortable way.

Fast Physical Switch Wheel

Unlike the normal connection change by combo keys, this wheel located by your right hand makes the 2.4G/Bluetooth Windows/Mac switch done in a quick smooth motion.

Magnetic Receiver Storage Bin

A careful designed magnetic bin to help you keep the receiver in a secured place, worry free and show your character

Fully Customizable RGB Backlight

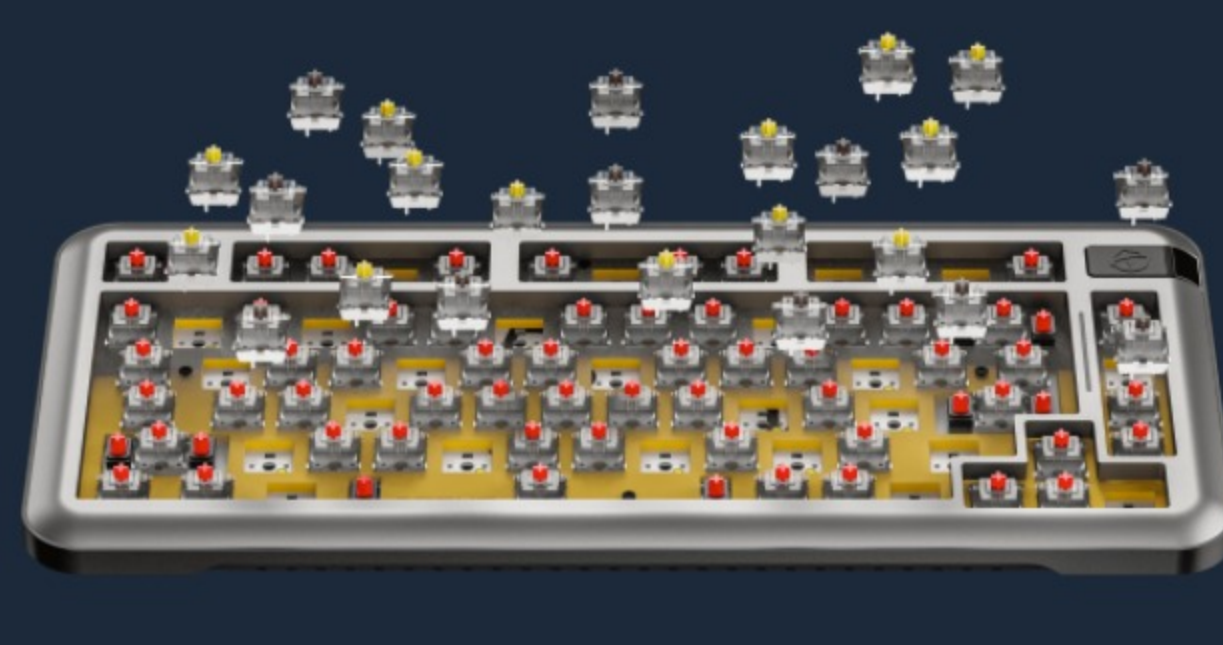

Lighting adds more fun for the table, and this moderate light strap keep them directly from your eyes and it flows with the music. "Flowing with the music function under development"

Hidden Yet Glimmer Light Strip

Gateron Switch PCB Satellite Shaft Hot-swappable base

Highly recognizable Gateron parts have been adopted in this keyboard, leveled up the whole experience significantly

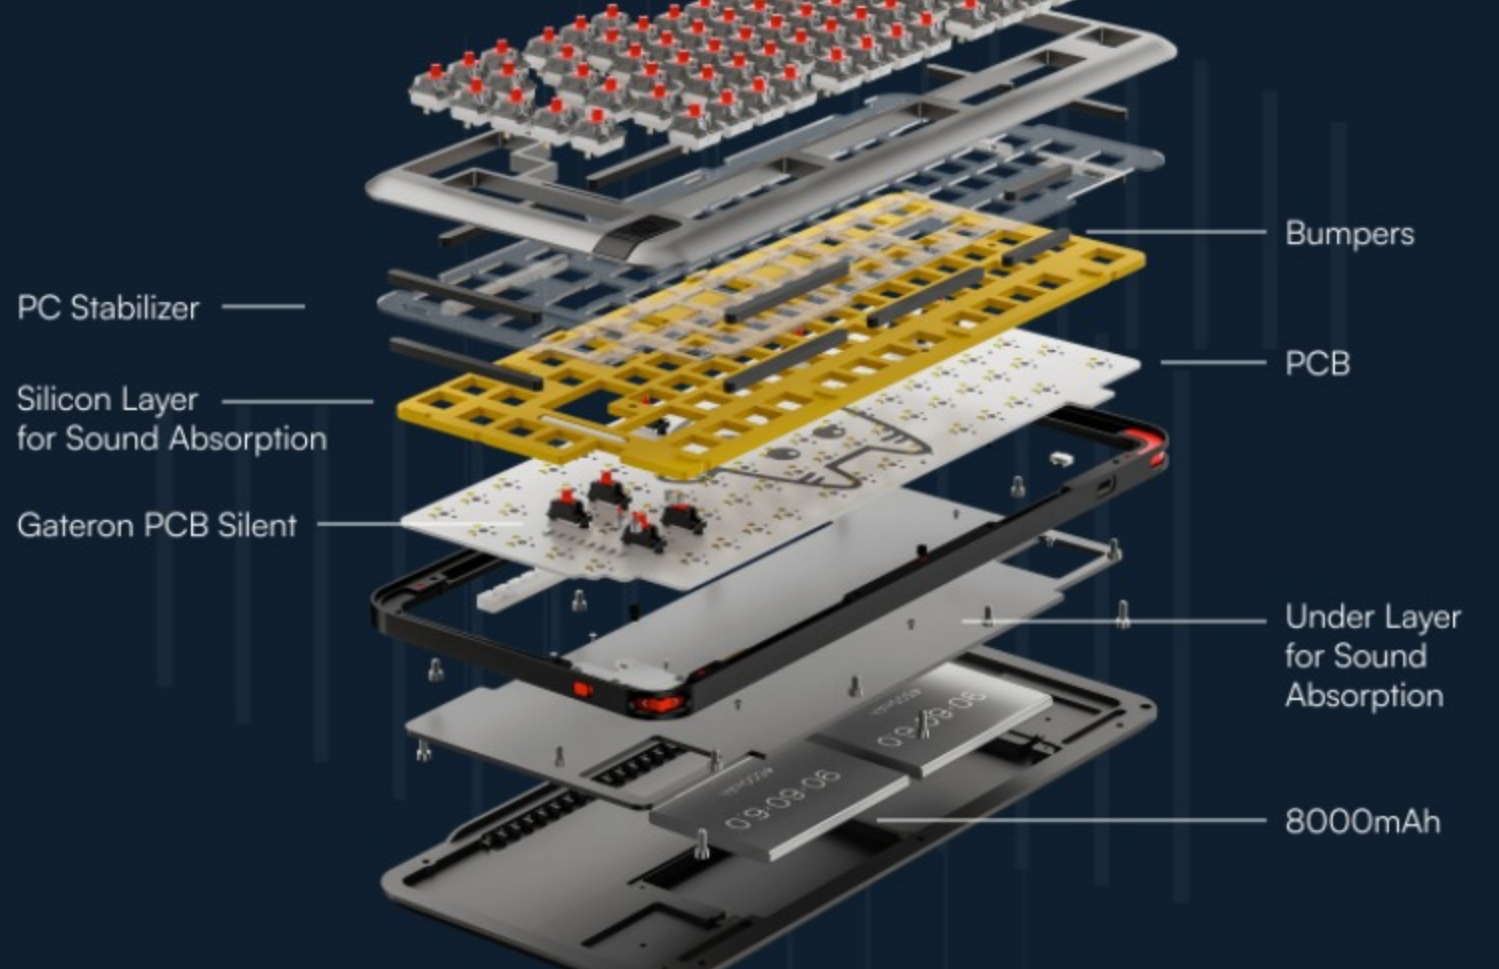

Long Lasting Battery with 8000mAh Capacity

Extra large battery embaded, it can be used for months without charging.

* Supports 6-8 hours daily use for 4-6weeks without lights on, 2-3weeks with lights on

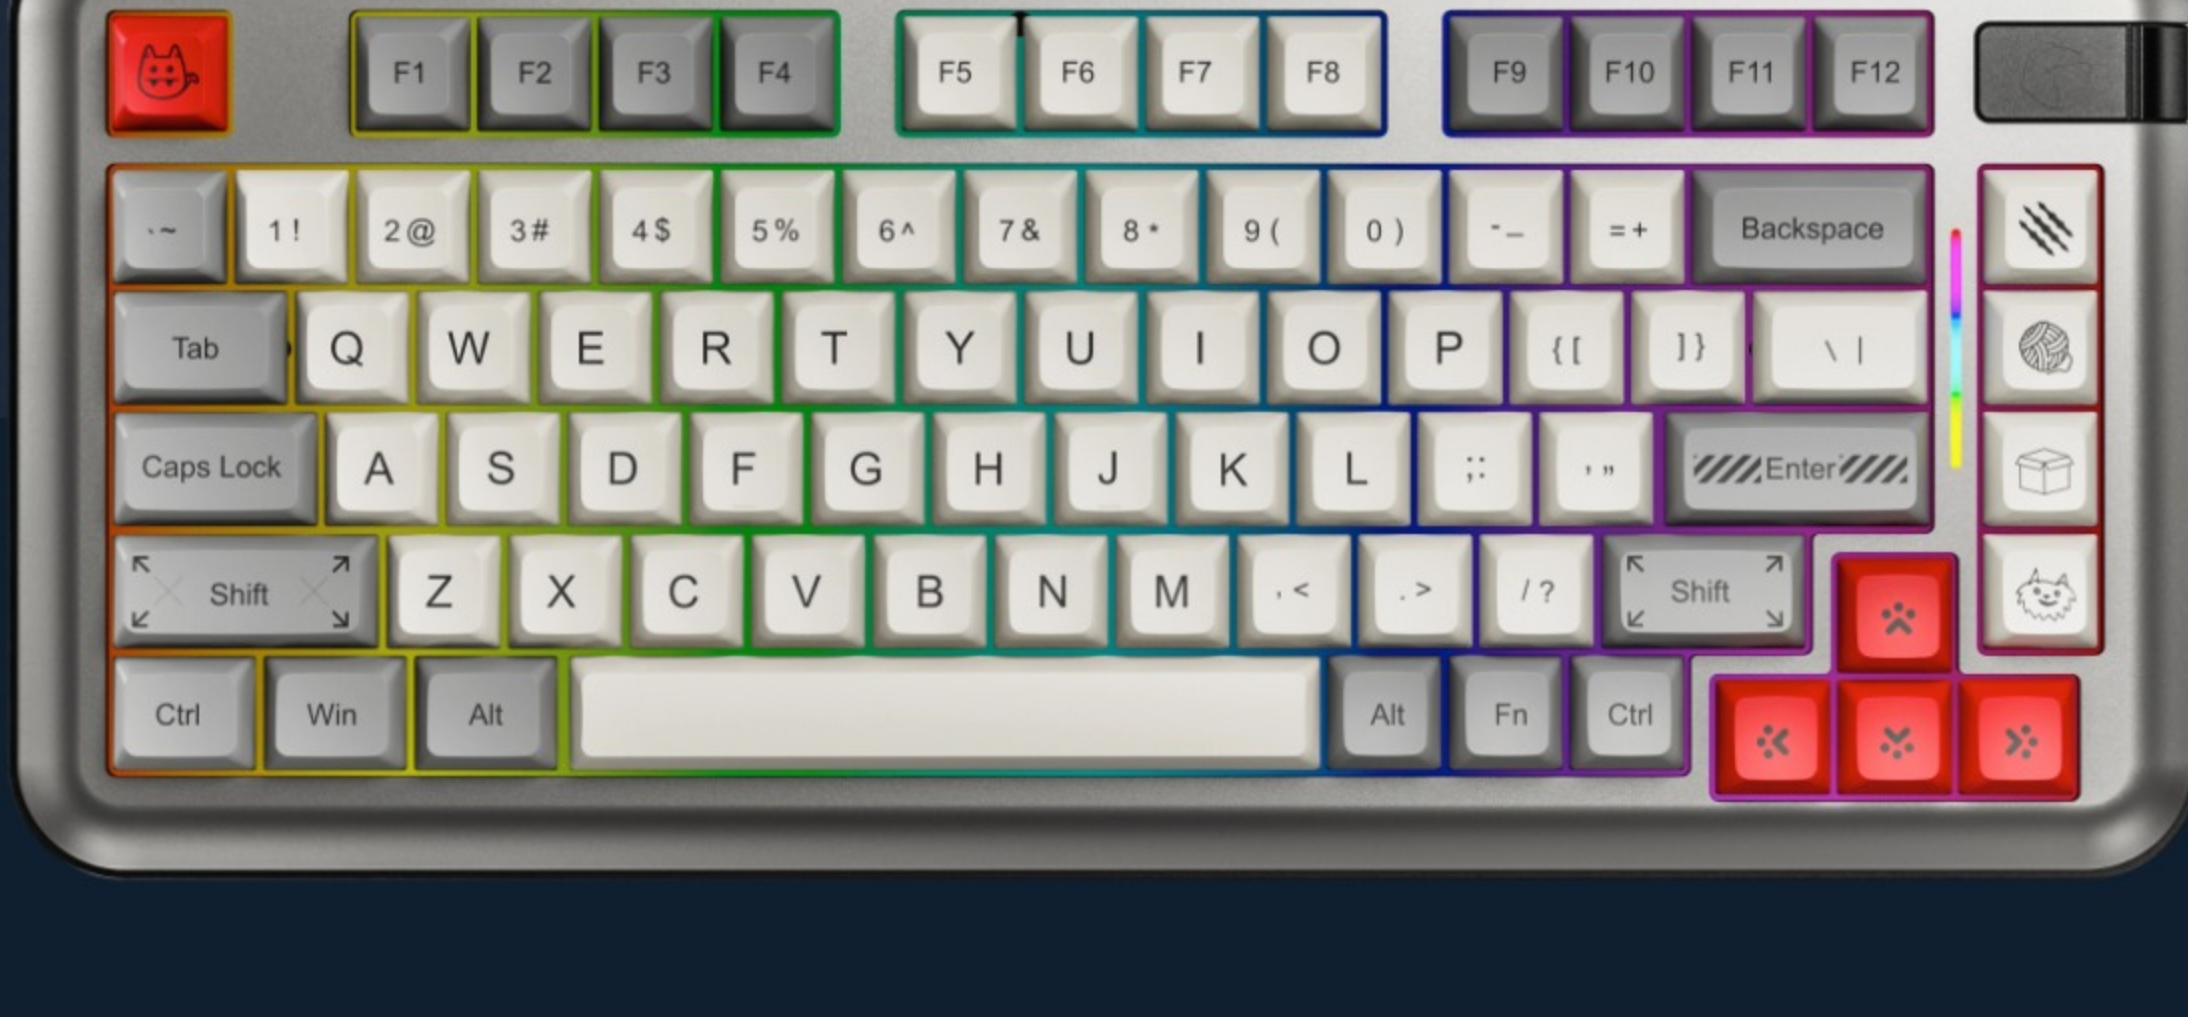

Well-balanced Gasket Structure and Material

This gasket mount structure creates excellent shock absorption. The positioning board and silicone silencer pad works together, to provide better typing sound and good feedback for everyone.

This is a very beautiful keyboard and I can use them to connect with all my devices.

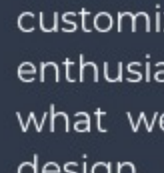

John M.

I got my keyboard about one week ago, and it really overcame all my expectations. I love the touch of color that this keyboard adds to my stay at home time, and it feels amazing to type in it.

Will C.

I've had this keyboard for a while now - ordered with all the original pack. The build quality is great, and most importantly for me, I can type for a very long time. Highly recommended.

Ryan L.

We are a brand that can do design, manufacture both branded and customized products. Our R&D team is a group of keyboard enthusiasts from different nations, we all share the same passion on what we do everyday.QEEKE Studio focus on truly unique product design, all to create personalized and interesting desktop-level products for consumers. QEEKE Studio will always bring you different experience in the future.
